

Avery Dennison[®] MPI[™] 3000 High Opacity Series

No more grey, just colours

High opacity films help you optimise your inventory - meaning you no longer have to stock both grey and transparent adhesives. Our Multi Purpose Inkjet 3000 High Opacity series (HOP) gives you all the operational flexibility you need. This range of self-adhesive monomeric short-term calendered vinyls offers high opacity gloss and matt whites, and a choice of permanent or removable adhesives.

Opacity above 99% means you can use clear adhesive with any application. The facestock offers good printability and attractive whiteness levels, making this portfolio an optimal and cost-effective solution for a wide range of short-term, promotional applications.

FEATURES

- > Available in Gloss (MPI 3000 HOP) and Matt (MPI 3020 HOP)
- > Permanent and removable adhesive options
- > 95 micron
- > High opacity (above 99%) allows use of clear adhesive
- > Available in all common sizes (1.067/1.37/1.60)
